CIB Digital Tech – Assessment

Task:

Create a simple phone book application using the technologies & patterns that you feel best show your technical knowledge. For example if you are applying for a CSS/Html then don't worry about the back end components.

Use Cases:

- Add entry to my phone book
- View phone book where I can search for entries (text box to search and list view)

Data Structures:

- PhoneBook { Name, Entries }
- Entry {Name, PhoneNumber}

Kindly upload your assessment to Dropbox and share the link with us within 24 hours upon receiving the assessment.
